

Growing Understanding

for Deafblind Awareness Month

In honour of National Deafblind Awareness Month, join us as we plant seeds of awareness and help educate Canadians about people who are Deafblind from coast to coast to coast.

How it works

Plant Seedlings

Participants will kickstart their learning journey by planting seedlings at home, school or in a community garden. Watch them grow over the month of May, then plant them outside in honour of Deafblind Awareness Month in June.

Engage in Learning Activities

Dive into our digital toolkit packed with exciting learning activities centered around Deafblind Awareness Month in June.

Explore, learn, and ignite meaningful conversations.

Spread Awareness

Plant your seedlings outside and display your Deafblind Awareness Month signs. Let's engage our communities and encourage others to learn more about people who are Deafblind all month long!

Get involved

Visit us at deafblindservices.ca
and download your toolkit today.
